SUMMARY

Dedicated and self-motivated Front-End Developer with hands-on experience in designing responsive, performance-driven web applications using HTML, CSS, JavaScript, Bootstrap, and MySQL. Adept at problem-solving, collaborating in teams, and implementing full-stack features with Node.js and Express.js. Passionate about clean code, UI/UX optimization, and continuous learning to build scalable digital solutions for modern business needs.

EXPERIENCE

Front-endDeveloper | Team Leader

Samanyastra

02/2025 - 04/2025 Location

- Led a team of 6 members during a 2-month internship
- Project planning and task delegation
- Ensured timely completion of milestones
- Worked extensively with HTML, CSS, and JavaScript
- Successfully completed 3 full-fledged projects

EDUCATION

BCS , ComputerScience

Savitribai Phule Pune University

01/2023 - 2026

HSC (12th)

Babuji Avhad Mahavidyalaya

01/2022 - 2023

PROJECTS

Build Statistics With Charting Libraries

03/2025 Location

Designed and developed a web-based statistics calculator that streamlines complex data analysis for students and exam aspirants. The application supports key statistical functions-including mean, median, mode, variance, and standard deviation-while integrating an advanced charting library to deliver intuitive, real-time visualizations of data distributions.

SKILLS

Node.js	Express.js	Ajax	JSON	Postman	Responsive Web	HTML	CSS	Bootstrap	JavaScript	Jquery
C/C++	Visual Studio Code	Git	GitHub	Gmail						

KEY ACHIEVEMENTS

- ☐ **Developed Multiple Projects**
Led development of 5 projects using HTML, CSS, and JavaScript.
- ☐ **Implemented Responsive Design**
Contributed to designing 10+ responsive pages for a mobile-first approach.

INTERESTS

- ☐ **Web Development and Exploring New Technologies**
